

# Thank You Midway Gold!

**By: Taylor Pickens**

It's a new year here at White Pine High School, but it's not just the year that's new or the freshman; you could say White Pine High School got a makeover. Not only did the school get new blue and white tiles to replace the carpet in the hallways, but Midway Gold donated 24 new computers for the high school computer lab. The company has been donating all year. They purchased uniforms for football and basketball, sponsored booster memberships, half court scholarships during basketball, a spaghetti feed during the spring athletic season (track, softball,

baseball and golf), scholarships for graduating seniors and partnered with other local businesses to host a grad night safe and sober party. The total amount of how much they donated was more than \$54,000.

Ken Brunk, Chairman, President and CEO, at Midway Gold and Roger Gross, Vice President of Nevada Operations, truly believe in giving back to the community. Andy Britton, Permitting Manager said, "Midway Gold feels that a strong school system builds a strong community." In the future, Midway Gold will continue working with the school

district including White Pine High School, the Middle School, and David E. Norman Elementary. Midway Gold will also be working closely with Great Basin College in implementing technical trade courses in the future. Midway's goal is to help in developing young people in the community to prepare them for a bright future in the workforce or future college endeavors.

White Pine High is looking spiffier than ever! Thank you Midway Gold! WPHS students are very appreciative for your generous donations!
