

MIDWAY GOLD

Midway to Commence Trading on the Toronto Stock Exchange

July 15, 2013

Denver, Colorado – Midway Gold Corp. (TSX.V and NYSE-MKT: MDW) (the “Company”) announces it has received final approval to move to the Toronto Stock Exchange (TSX) from the TSX Venture Exchange (TSX.V). Listing of its shares on the TSX is effective July 16, 2013. The common shares will continue to trade under the symbol “MDW” as they presently do on the NYSE-MKT.

Ken Brunk, Midway’s Chairman, President and CEO stated, “Moving to the TSX is an appropriate next step in light of planned first production in 2014 at our Pan gold project in western White Pine County. We are optimistic that the TSX listing will afford Midway new opportunities going forward, and we are pleased to bring yet more good news to the market.”

In 2013, Midway was one of the 20 largest companies in the mining sector listed on the TSX.V on a Quoted Market Value basis.

ON BEHALF OF THE BOARD

“Kenneth A. Brunk”

Kenneth A. Brunk, Chairman, President and CEO

Neither the TSX Venture Exchange, its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) nor the NYSE MKT accepts responsibility for the adequacy or accuracy of this release.

This press release contains forward-looking statements about the Company and its business. Forward looking statements are statements that are not historical facts and include, but are not limited to, statements about the Company's intended work plans and resource estimates and potential offering of common shares of the Company from time to time. The forward-looking statements in this press release are subject to various risks, uncertainties and other factors that could cause the Company's actual results or achievements to differ materially from those expressed in or implied by forward looking statements. These risks, uncertainties and other factors include, without limitation, risks related to the timing and completion of the Company's intended work plans, risks related to fluctuations in gold prices; uncertainties related to raising sufficient financing to fund the planned work in a timely manner and on acceptable terms; changes in planned work resulting from weather, logistical, technical or other factors; the possibility that results of work will not fulfill expectations and realize the perceived potential of the Company's properties; uncertainties involved in the interpretation of drilling results and other tests and the estimation of gold resources and reserves; the possibility that required permits may not be obtained on a timely manner or at all; the possibility that capital and operating costs may be higher than currently estimated and may preclude commercial development or render operations uneconomic; the possibility that the estimated recovery rates may not be achieved; risk of accidents, equipment breakdowns and labor disputes or other unanticipated difficulties or interruptions; the possibility of cost overruns or unanticipated expenses in the work program; and other factors identified in the Company's SEC filings and its filings with Canadian securities regulatory authorities. Forward-looking statements are based on the beliefs, opinions and expectations of the Company's management at the time they are made, and other than as required by applicable securities laws, the Company

does not assume any obligation to update its forward-looking statements if those beliefs, opinions or expectations, or other circumstances, should change.
